CalFresh food benefits stretch household budgets, allowing recipients to afford nutritious food, including more fruit, vegetables and other healthy options. The program helps to improve the health and well-being of qualified households and individuals by providing them a means to meet their nutritional needs.

On March 16, 2020, the Contra Costa County Health Officer issued a Shelter-in-Place Order in response to the Coronavirus pandemic. Immediate impacts on the demand for Social Services appear in these dashboards.

The number of individuals receiving CalFresh in Contra Costa County declined in recent years, largely due to the improving economy.

On June 1, 2019, certain aged and disabled individuals who receive Supplemental Security Income (SSI) gained eligibility to receive CalFresh. Enrollment increased accordingly.

Note: For 2020, only the 1st 7 months of reporting are available.

CalWORKs provides financial aid, employment services and other supportive services to families with children under 19, to help them succeed in the workforce and become self-sufficient. Recipients are required to work or participate in educational activities for at least 20 hours per week, unless granted a medical exemption. The majority of participants in Contra Costa County are single mothers, and the average grant amount is \$633 a month.

On March 16, 2020, the Contra Costa County Health Officer issued a Shelter-in-Place Order in response to the Coronavirus pandemic. Immediate impacts on the demand for Social Services appear in these dashboards.

As the economy improved and the minimum wage increased, there was a steady decline in CalWORKs enrollment between 2017 and 2019.

Note: For 2020, only the 1st 7 months of reporting are available.

CalWORKs cases can include a single parent and their child/children or several family members living together. Similar to the number of individuals, the number of cases has declined in recent years, due to the improved economy and an increase in the minimum wage. However, because the number of individuals in any given case may vary, the number of cases does not equal the number of individuals.

On March 16, 2020, the Contra Costa County Health Officer issued a Shelter-in-Place Order in response to the Coronavirus pandemic. Immediate impacts on the demand for Social Services appear in these dashboards.

As the economy improved and the minimum wage increased, there was a steady decline in CalWORKs cases between 2017 and 2019.

Note: For 2020, only the 1st 7 months of reporting are available.

The Welfare-to-Work (WTW) Program is a comprehensive Employment & Training program for CalWORKs recipients designed to promote self-sufficiency. All WTW participants receive an orientation and appraisal of their education and employment background, followed by the development of a WTW plan designed to assist individuals with obtaining employment. WTW participants may be eligible to receive supportive services such as child care and transportation services.

On March 16, 2020, the Contra Costa County Health Officer issued a Shelter-in-Place Order in response to the Coronavirus pandemic. Immediate impacts on the demand for Social Services appear in these dashboards.

The improving economy and employment rate led to a steady reduction in the number of WTW enrollees, with a decline of more than 45% between January 2017 and December 2019.

Note: For 2020, only the 1st 7 months of reporting are available.

The General Assistance program is designed to provide temporary relief and support to indigent adults who are not supported by their own means, other public funds or assistance programs. The maximum monthly stipend for General Assistance is \$375.

On March 16, 2020, the Contra Costa County Health Officer issued a Shelter-in-Place Order in response to the Coronavirus pandemic. Immediate impacts on the demand for Social Services appear in these dashboards.

For General Assistance, the number of cases refers to the number of individuals receiving aid through Contra Costa County. With a strengthening economy, the average number of individuals receiving General Assistance declined between January 2017 and December 2019. However, within the 3-year time period, there was an increase in cases beginning September 2018. This was due to several program changes that were instituted to streamline the enrollment process.

Note: For 2020, only the 1st 7 months of reporting are available.

Medi-Cal provides a core set of health benefits, including doctor visits and hospital care. It is a key support to those who do not receive health coverage through an employer, cannot afford health care, and families who rely on Long Term Care services, such as nursing homes, to help care for loved ones.

On March 16, 2020, the Contra Costa County Health Officer issued a Shelter-in-Place Order in response to the Coronavirus pandemic. Immediate impacts on the demand for Social Services appear in these dashboards.

Many of our Medi-Cal recipients are working. The number of Medi-Cal cases has remained fairly stable year-to-year.

Note: For 2020, only the 1st 7 months of reporting are available.

Under the Affordable Care Act (ACA), “Expanded Medi-Cal” allowed more of Contra Costa’s low-income individuals to receive health coverage, some for the first time. Since 2014, adults aged 19-64 have been able to qualify for expanded Medi-Cal based on income and other eligibility requirements.

On March 16, 2020, the Contra Costa County Health Officer issued a Shelter-in-Place Order in response to the Coronavirus pandemic. Immediate impacts on the demand for Social Services appear in these dashboards.

From the beginning, nearly 70,000 county residents have been enrolled for coverage through this program on a monthly basis. The number of residents covered by ACA Expanded Medi-Cal has remained fairly stable year-to-year.

Note: For 2020, only the 1st 7 months of reporting are available.

Adult Protective Services (APS) receives, screens and investigates confidential reports from anyone who suspects that an elderly person or an adult with a disability is being abused, neglected, or is self-neglecting. This includes reports of physical, emotional or sexual abuse, financial or material exploitation, neglect, isolation and abandonment of individuals 65+ and dependent adults age 18 or over, who are unable to protect their own interests and have been harmed or are threatened with harm.

On March 16, 2020, the Contra Costa County Health Officer issued a Shelter-in-Place Order in response to the Coronavirus pandemic. Immediate impacts on the demand for Social Services appear in these dashboards.

The average monthly number of active APS cases remained fairly steady year-to-year between 2017 and mid-2019. An increase in monthly active cases during 2019 can be attributed to increased outreach efforts and grant resources, as well as some cases being kept open longer to meet new mandates.

In-Home Supportive Services (IHSS) is the largest publicly funded home care program in the United States. California is one of a number of states that participate in the program. IHSS helps to pay for services to eligible aged, blind and disabled individuals who are unable to remain safely in their own homes without assistance. Disabled children are also potentially eligible for IHSS. IHSS covers common activities of daily living needed by those with disabilities and serves as an alternative to out-of-home care such as skilled nursing facilities.

Due to increases in the aged and disabled populations, IHSS has been the fastest-growing program within the Employment & Human Services Department for the past several years. Growth has actually accelerated in recent years.

On March 16, 2020, the Contra Costa County Health Officer issued a Shelter-in-Place Order in response to the Coronavirus pandemic. Immediate impacts on the demand for Social Services appear in these dashboards.

Note: For 2020, only the 1st 7 months of reporting are available.

Child Protective Services (CPS) operates a 24-hour hotline for mandated reporters and community members to report suspected child abuse or neglect. Federal and State Regulations guide which calls result in referrals that allege a child is endangered by abuse, neglect or exploitation – and how the calls are handled. Children and Family Services Bureau has the responsibility to investigate reports of children at risk or in danger per criteria outlined in Welfare and Institutions Code 300.

The number of referrals in this dashboard may include multiple calls on the same child, as well as cases that were investigated but were not found to be instances of child abuse. The average monthly number of CPS referrals can vary based on such things as when school is in session or children are interacting with mandated reporters. Reporters are comprised of mandated, non-mandated or anonymous reporters.

On March 16, 2020, the Contra Costa County Health Officer issued a Shelter-in-Place Order in response to the Coronavirus pandemic. Immediate impacts on the demand for Social Services appear in these dashboards.

Placements refer to instances when a child abuse referral was investigated and substantiated, and it was determined that the child could not remain safely in the home. Foster placements can include family members, foster homes or residential facilities. All types of placements must meet State identified standards of approval.

The average monthly number of children in Placement has been declining in recent years, which mirrors the multi-year State trend. This is due to evolving Child Welfare practices that approach referrals and removals with a sharper focus on Prevention and Safety/Risk Assessments.

On March 16, 2020, the Contra Costa County Health Officer issued a Shelter-in-Place Order in response to the Coronavirus pandemic. Immediate impacts on the demand for Social Services appear in these dashboards.

Note: For 2020, only the 1st 7 months of reporting are available.

Program Glossary

CalFresh, federally known as the Supplemental Nutrition Assistance Program (SNAP), can add to your food budget to put healthy and nutritious food on the table. The program issues monthly electronic benefits (commonly called EBT cards) that can be used to buy most foods such as bread, cereal, fruits, vegetables, meat and fish at many markets and grocery stores. The CalFresh program helps to improve the health and well-being of qualified households and individuals by providing them a means to meet their nutritional needs. Cases refer to the number of households receiving CalFresh, which can include a single individual or several family members living together. Individuals refers to an unduplicated count of all people receiving CalFresh in Contra Costa County.

California Work Opportunity and Responsibility for Kids (**CalWORKs**), federally known as Temporary Assistance for Needy Families (TANF), provides financial aid, employment services and other supportive services to families with children under 19, to help them succeed in the workplace and become self-sufficient. Cases refer to the number of families participating in CalWORKs, which can include a single parent and their child or several family members living together. Individuals refers to an unduplicated count of all people receiving CalWORKs in Contra Costa County.

Program Glossary

The **General Assistance** Program is designed to provide temporary relief and support to indigent adults who are not supported by their own means, other public funds, or assistance programs. The cases refer to the total number of people receiving aid through Contra Costa County.

Adult Protective Services (APS) responds to confidential reports from anyone who suspects that an elderly person or an adult with a disability (dependent adult) who lives in Contra Costa County is being abused or neglected or is self-neglecting. Our 24-hour hotline is staffed by social workers who respond to these calls and will walk the caller through a series of questions to determine if a situation requires APS intervention. When a case is opened in APS, an APS social worker will be assigned to the case and will go out to the home of the alleged victim to determine what services, if any, are needed. The active cases displayed in this dashboard refers to older adults receiving intervention through Contra Costa County.

In-Home Supportive Services (IHSS) is the largest publicly funded home care program in the United States. California is one of a number of states that participate in the program. IHSS helps to pay for services to eligible aged, blind and disabled individuals who are unable to remain safely in their own homes without assistance. Disabled children are also potentially eligible for IHSS. IHSS is an alternative to out-of-home care such as skilled nursing facilities, assisted living or board and care facilities. This dashboard provides the total number of people receiving IHSS home care in Contra Costa County.

Program Glossary

Child Protective Services (CPS) operates a 24-hour hotline for mandated reporters and community members to report suspected child abuse or neglect. Federal and State Regulations guide which calls result in **referrals** that allege a child is endangered by abuse, neglect, or exploitation – and how the calls are handled. In addition, the Children & Family Services Bureau has the responsibility to investigate reports of children at risk or in danger per criteria outlined in Welfare and Institutions Code 300. The number of referrals in the dashboard may include multiple calls on the same child, as well as cases that were investigated but were not found to be instances of child abuse. Reporters are comprised of mandated, non-mandated or anonymous reporters.

Placements refer to instances when a child abuse referral was investigated, substantiated, and it was determined that the child could not remain safely in the home. Foster placements can include family members, foster homes, or residential facilities. All types of placements must meet State identified standards of approval.

The **Welfare-to-Work (WTW)** Program is a comprehensive Employment and Training Program designed to promote self-sufficiency. CalWORKs recipients are assessed to determine the best course of action, whether it is immediate placement into a job, placement into an education or training program, or both. All Welfare-to-Work participants receive an orientation to the program and appraisal of their education and employment background, followed by the development of a WTW plan designed to assist individuals with obtaining employment. WTW participants may be eligible to supportive services such as child care and transportation services.
