**DATE:** March 29, 2021

**TO:** Code 2A, All Staff

**FROM:** Administration

**SUBJECT:** Reboot request

Inadvertently, an error resulted in Microsoft Edge becoming the default browser enterprise-wide. It is preventing STARS notices from automatically opening, requiring an extra step to open the document. I have updated user profiles to revert back to Internet Explorer until the issue can be resolved. Please reboot your PC when convenient to resolve the issue. If you have any questions, please call the help desk at 925-521-7200 (1-7200).
