

Reminder! Action Required

Register for Multi-Factor Authentication(Multi-step Verification)

Our department is making it easier than ever for you to add more security to your network account. With the increased number of security events we are needing to add more protection to our network. We would like to remind you to register for **Multi-Factor Authentication (MFA)** if you have not done so already.

[Register here](#)

You can complete the sign-up process using your existing credentials (username and password) that you use to login today.

Next steps

After you register, you will be able to add a safe and secure two-step verification method for your online credentials from a range of authentication options (such as phone call, text message, or mobile app notification) to access your network account.

We will be requiring MFA on all outside connections starting August 13, 2021. This will not affect users that currently login in from home using Citrix or the VPN token.

Need help?

Learn to [register for MFA](#)

Thanks,
EHSD department
